Executive Summary

Welcome to Council's combined Delivery Program 2017-2021 and Operational Plan 2019/20.

Council's Delivery Program turns the strategic goals found in the Community Strategic Plan into actions. All plans, projects, activities and funding allocations of the council must be directly linked to the Delivery Program.

Importantly it is our commitment to you about what we will deliver. It is underpinned by a range of supporting documents such as our long-term financial plan, workforce plan and asset management plans.

Council's extensive review of the Community Strategic Plan in late 2017 and deliberations by the Community Solutions Panel in March 2018 provided an opportunity to significantly review the Delivery Program and ensure it met the new objectives.

Council developed a new Delivery Program 2017-2021 with the newly appointed Council in early 2017 and to ensure the requirements of the Disability Inclusion Act were met. This was Council's commitment to the community about what they would deliver during their term of Council.

Council's ongoing commitment to these priorities will continue in 2019/20, supported by a new annual Operational Plan 2019/20. The activities that are proposed to be undertaken in 2019/20 are outlined in this document.

Introduction

Byron Shire Council’s Delivery Program 2017-2021 and Operational Plan 2019/20 are two parts of the suite of Byron Shire Council’s Integrated Planning and Reporting documents. These documents are linked together by a matrix of actions that details how the community’s long term aspirations and outcomes will be achieved.

Long Term **Byron Shire Council Community Strategic Plan 2028**

(10 years) Developed in consultation with the Byron Shire community, the long term community aspirations for the future direction of Byron Shire have been captured as Community Objectives within the Community Strategic Plan (CSP). Long Term Strategies have been included and they outline how the Community Objectives will be achieved.

Our plans are based around five community objectives underpinned with 26 strategies.

The Delivery Program details these strategies and specifically outlines what Council will do over 4 years from 2017 to 2021 to deliver the long term strategies.

The Operational Plan details the activities Council will undertake during 2018-2019 to deliver on the long term strategies contained in the CSP.

Medium Term **Delivery Program**

(4 years) The four year program details the Actions that Council will undertake in order to work towards achieving the Community Outcomes of the CSP.

Short Term **Operational Plan**

(annual) The Operational Plan lists activities Council will undertake in the coming 12 month period. The Operational Plan also includes the Statement of Revenue Policy (the annual budget and fees and charges).

In addition, this suite of documents is underpinned by Council’s Resourcing Strategy which consists of a Long Term Financial Plan, Asset Management Plan and Workforce Plan. These documents outline how Council has considered, in the medium to long term, the Shire’s finances, assets and workforce to achieve the Community Strategic Plan outcomes.

Byron Shire Council’s Integrated Planning and Reporting Framework is captured in the diagram below:

Community Vision And Council Values

Our vision

Our community is empowered to be creative, innovative and listened to as we shape the future way of living that we want.

While we strongly protect our Shire; its natural environment, lifestyle, diversity and community spirit, we welcome visitors and the contribution they make to our culture.

Our future is sustainable, we have the services and infrastructure we need to thrive, and we encourage and support local business and industry.

We foster the arts and cultural activities, respect and acknowledge our first peoples and celebrate and embrace diverse thinking and being.

The community's vision is captured in the 10-year Community Strategic Plan 2028 developed collaboratively between the community and Council in 2018.

Council's values

Council staff have embedded the following important values into their everyday tasks and contact with each other and the community. These words and images help staff focus on what is important to them about values. We have built these values into the staff recognition and acknowledgement programs.

WE LEAD WITH ENTHUSIASM
AND PURPOSE

WE ARE OPEN, HONEST
AND RESPECTFUL

WE FOSTER WELLBEING
AND CREATIVITY

WE ACHIEVE OUR GOALS AND
SUCCEED TOGETHER

Byron Shire Community Solutions Panel

In early 2018, Council undertook a bold new democratic exercise and ran a Community Solutions Panel to hear directly from a representative group of Byron Shire residents.

Council knows its community cares deeply about the culture and lifestyle which makes Byron Shire unique, and that you want to be involved in decision-making about the things that impact this culture and lifestyle.

The Community Solutions Panel was our first attempt to really do something different – to show you that we value your input, your expertise, your willingness to work with and alongside us to make decisions that affect all of us.

We asked newDemocracy Foundation (nDF) to design and run the Community Solutions Panel, independently from Council. nDF is an independent, non-partisan research and development organisation working in ways to strengthen and restore trust in public decision making.

The Byron Shire Community Solutions Panel was a representative group of people, picked at random like a jury, to directly influence Council's decisions on infrastructure priorities for the next four years

The panel was armed with time, free access to information, a clear authority and ideas from community members and stakeholders. The panel were able to reach a shared, considered judgement around the question...

“what infrastructure spending Council should prioritise, and how these priorities should be funded if the rates alone are not enough?”

Council committed that the Panel's recommendations will be implemented in the Delivery Program when it is adopted in June 2018.

The panel came up with a set of considerations, values, a decision making framework and infrastructure categories weighted by values to inform Council's priorities. The panel also outlined potential revenue options and how the community should continue to be involved in Council activities and decisions.

Their considerations were:

- We aim to be proactive, not reactive.
- We recognise there are different needs in different places.
- We support investing in renewal when it is practical and necessary to do so.
- We encourage, support and facilitate shared ownership of community issues.
- We recognise that the development of transport alternatives to cars is essential.
- We support investment into infrastructure that generates a return.
- We endorse innovative approaches and efficiency in processes.
- We require organisational and individual responsibility, accountability and transparency.

Their values were:

- Safety
- Community wellbeing
- Connectivity
- Equity
- Environmental consciousness
- Excellence in design

Their decision making framework was:

1. Risk and safety is the first priority across all infrastructure types.
2. It is the desire for “poor” infrastructure to be upgraded to at least a “fair” status. That does not mean all “poor” infrastructure is required to be upgraded. It is the responsibility of BSC to align decisions of “poor” status upgrades to be reflective of the CSP’s Vision and Values.
3. Some funds should be allocated for “renewal”, “operational” and to “new” projects. In this phase, the CSP is content that “new” work can be undertaken by the utilisation of s94 or grant funds and considered in terms of long-term planning and cost-efficiency.
4. In the longer term, after we achieve a “fair” status over the majority of infrastructure types, then the expenditure of rates funds on infrastructure can move to be more balanced across upgrading infrastructure status.

Appendix 1 includes the full Panel Report. For more information on the Community Solutions Panel, go to <https://www.newdemocracy.com.au/our-work/447-byron-shire-council-trialling-a-community-solutions-panel>

How the Panel’s recommendations contribute to our Delivery Program

The Delivery Program (DP) Actions listed below are just a snapshot of our Actions and 2018-2019 Activities (found on pages 18 to 38) that relate to the Panel’s decision making framework. This is not a definitive list since many of the Panel’s recommendations are put into practice every day, for example risk and safety is always our main concern when performing our actions, regardless of what we’re working on.

The Panel’s full report which includes the Panels vision, values, considerations and recommendations can be found at Appendix 1.

1.2.5
2.3.2
2.3.5

What you'll see in 2019-20

- You'll see our maintenance levels for road network infrastructure developed in line with the Community Solutions Panel values. To do that we'll be reviewing our Infrastructure Services Risk Management Plan to include access considerations.
- You'll see us prioritise and complete requests for works by undertaking highest priority works within approved budgets and refine risk based methodologies and predictive modelling to strategically prioritise maintenance and renewal of infrastructure. The review and report of the risk matrix for high risk assets will be reported to the Transport and Infrastructure Advisory Committee.
- Additionally, we'll be providing active and passive recreational community space that is accessible and inclusive for all by delivering a beach accessibility program including the establishment of ongoing maintenance plans. We'll also be developing and delivering the public open space accessibility program. A draft program will be presented to Council for adoption and you'll see us completing projects that meet accessibility Program Criteria.
- We'll be developing and implementing a five year works schedule for building maintenance and major work schedule for community buildings that is informed by access requirements.
- Also, our annual program of works will be completed within budget to maintain our public open spaces in a safe and efficient way to provide for both active and passive recreation.

Recommendation 2: It is the desire for "poor" infrastructure to be upgraded to at least a "fair" status. That does not mean all "poor" infrastructure is required to be upgraded. It is the responsibility of BSC to align decisions of "poor" status upgrades to be reflective of the CSP's Vision and Values.

1.1.1
1.1.2
2.3.5

What you'll see in 2019-20

- You'll see us deliver road and drainage maintenance services in line with the Community Solutions Panel Recommendation by developing ongoing road and drainage planned maintenance programs as well as develop and adopt community based levels of service for transport infrastructure. We'll also be undertaking detailed road condition laser assessment and revaluation
- We'll also be planning and delivering our open space works programs within budget based on defined levels of service so that our public open spaces are maintained to provide for both active and passive recreation.

Recommendation 3: Some funds should be allocated for “renewal”, “operational” and to “new” projects. In this phase, the CSP is content that “new” work can be undertaken by the utilisation of s94 or grant funds and considered in terms of long-term planning and cost-efficiency. Refer to the previously discussed Key Considerations.

1.2.1
1.2.2
1.2.3
1.2.4
1.6.3
2.3.6
5.4.4
5.6.12

What you’ll see in 2019-20

- As well as completing the bridge replacement program, you’ll see us implementing our priority causeway and culvert renewal program for projects involving road pavements, road reseals, footpaths, roadside drainage, kerb and gutter, and road signage.
- We’ll be developing and completing a program of new works for road and associated drainage related assets in line with the Panel’s recommendation and implementing over 95 percent of our planned maintenance activities in our program for asset classes such as buildings, water and sewer, and resource and recovery operations.
- You’ll see a draft Buildings Asset Management Plan and Open Space Asset Management Plan presented to Council for adoption so we can undertake our infrastructure asset renewal and upgrade program in line with Community Solutions Panel values.
- A New Works 10 Year Program will be prepared, with 95 percent of the first year’s program delivered, that is aligned to the adopted Recreational Needs Assessment and Solutions Panel values.
- We’ll be working with the community to prioritise actions from the town and village masterplans and identify actions to inform quarterly budget reviews and future budget development to ensure that high priority actions are included in programs where they’re able to be funded.
- To be “grant ready” we’ll be improving our organisational project development and priority setting. This means that we’ll be better able to implement strategic grants by using our management systems to deliver priority projects for Byron’s community. We’ll do this by continuing to participate in cross-directorate project development including creating competitive approaches to align with Federal and State Government policies - Improvements in organisational project development and priority setting to enable grant readiness.

Recommendation 4: In the longer term, after we achieve a “fair” status over the majority of infrastructure types, then the expenditure of rates funds on infrastructure can move to be more balanced across upgrading infrastructure status.

1.2.5
1.2.6
1.6.3
5.5.2

What you’ll see in 2019-20

- By optimising Council’s property portfolio, we’ll be progressing nominated sites including:
 - Lot 102 Depot Relocation investigation
 - Purchase of land access for Lot 4 Mullumbimby
 - Progress the future use of Fletcher / Lawson Street Byron Bay redevelopment
 - Tyagarah Airfield assessment and development
- You’ll also see an endorsed detailed design with inclusive elements and complete building approvals for the upgrade of the Ocean Shores Community Centre.

Key Consideration 1: We aim to be proactive, not reactive

1.1.1
1.1.2
5.1.5

What you'll see in 2019-20

- We'll be developing and implementing road and drainage maintenance programs that will see planned activities completed and hopefully a decrease in reactive works spending. It's expected that we'll also see a decrease in customer requests as our proactive program will have completed the area
- We'll undertake inspections to identify and prioritise works as well as undertaking highest priority works first.
- Importantly we'll be improving our reporting systems so you have an update on how our works are progressing

Key Consideration 2: We recognise there are different needs in different places

1.1.2
1.1.3
1.1.4
2.3.3

What you'll see in 2019-20

- You'll be consulted on levels of service so we all have a clear understanding of expectations especially when it comes to reactive works
- Our road network renewal and upgrade programs will be developed based on the values including causeways, culverts, pavements, footpaths, drainage, gutter and signage
- We'll be developing a program of new works for roads in line with values
- We'll be developing the Richmond Tweed Regional Library Strategic Plan and local Service Level Agreements to review how we provide high quality library services for all of our community

Key Consideration 3: We support investing in renewal when it is practical and necessary to do so

1.1.3
5.4.2

What you'll see in 2019-20

- We'll complete our bridge replacement program
- We'll use predictive modelling software to inform our proactive renewal program and improve our data quality

Key Consideration 4: We encourage, support and facilitate shared ownership of community issues

5.1.1

What you'll see in 2019-20

- We'll embed Community Led Governance Principles (per Council resolution 18-176) into operations which looks at shared-ownership of projects and empowering communities
- We'll provide opportunities for volunteering
- We'll provide information about key projects and initiatives

Key Consideration 5: We recognise that the development of transport alternatives to cars is essential

1.6.3

What you'll see in 2019-20

- We recognise that transport alternatives is essential so we'll be ensuring that new infrastructure is planned and funded to meet the needs of the current and future population. We'll also make a submission to Transport for NSW to advocate for innovative transport solutions and improved public transport across the Shire which will demonstrate our support for increased services for the Byron Community.
- Also, since all of our cars won't be leaving the road in the near future we'll be developing a Car Share Policy and pilot a car share program for Byron Bay and Mullumbimby to minimise the impact and number of cars on our roads, and to provide transport solutions for people without cars.
- While supporting, through partnership, a network of integrated sustainable transport options, we'll be preparing an Integrated Transport and Movement Plan to ensure that we have an integrated and accessible transport network. We'll also be updating our Bike Plan and Pedestrian and Access Mobility Plan while delivering works on prioritised pedestrian and access mobility plan facilities.
- You'll see us apply to the NSW State Government through the RMS for bike facilities grants and we'll support the Byron Bay Bus Interchange in partnership with Transport for NSW. Further, in relation to public transport, we'll be finalising a report on the review of intermodal use of the Byron Rail Corridor

Key Consideration 6: We support investment into infrastructure that generates a return

1.2.6

What you'll see in 2019-20

- We recognise that some infrastructure can and should generate a return. That's why we are looking to optimise our property portfolio including Lot 12 Byron Bay, Lot 22 Mullumbimby, Mullumbimby Hospital, and Byron Bay Masterplan projects

Key Consideration 7: We endorse innovative approaches and efficiency in processes

5.4.2

5.6.10

What you'll see in 2019-20

- We'll improve further our asset management systems capability by implementing improvement actions detailed in key audit reports and improve the data quality of our Asset Register to ensure all departments utilise the system as the point of truth for assets.
- We'll use business insights and strategic business planning to continuously improve by completing the 2018 Local Government Performance Excellence Program Report FY2018 and report it to our Internal Audit, Risk and Improvement Committee.

Key Consideration 8: We require organisational and individual responsibility, accountability and transparency

5.2.1
5.1.6
5.5.2
5.5.3
5.5.10

What you'll see in 2019-20

- We'll improve our reporting to ensure accountability and transparency by providing regular updates
- We'll also manage our assets and resources in a sustainable manner such as our financial integrity, robust procurement and use business insights to underpin our strategic planning

Panel Conclusion: The Byron Shire Community Solutions Panel recommends that Byron Shire Council continue to engage with its community.

5.1.1

What you'll see in 2019-20

- To facilitate inclusive community consultation and stakeholder engagement to inform Council decision making we'll embed the findings of the Byron Model into operations by finalising staff training material and including relevant principles into our Community Engagement Policy. We'll also be working on an engagement toolkit for staff which will include place making tools.

The Disability Inclusion Act 2014 (NSW)

The Disability Inclusion Act 2014 (NSW) provides the legislative framework to guide state and local government disability inclusion and access planning. The Act supports people with disabilities to access:

- The same human rights as other members of the community;
- Independence and social and economic inclusion within the community; and
- Choice and control in the pursuit of their goals and the planning and delivery of their supports and services.

In meeting the requirements under the Act for disability inclusion and access planning, Council must:

- (a) Specify how it will incorporate UN human rights disability principles into its dealings with matters relating to people with disability
- (b) Include strategies to support people with disability
- (c) Include details of its consultation about the plan with people with disability
- (d) Explain how planning supports the goals of the State Disability Inclusion Plan in the four key areas of
 - Attitudes and behaviours
 - Liveable communities
 - Employment
 - Systems and processes

Other legislation which has relevance to the delivery of disability inclusion action planning includes:

- Commonwealth Disability Discrimination Act 1992;
- Commonwealth Disability (Access to Premises – Buildings) Standards 2010;
- NSW Anti-Discrimination Act 1997 (ADA);
- Local Government Act 1993 and Local Government (General) Regulation 2005.

Community Objectives

The Delivery Program and Operational Plan is structured by each of the 'Our Byron, Our Future' Community Strategic Plan (2018-2028) objectives:

INFRASTRUCTURE

We have infrastructure, transport and services which meet our expectations

COMMUNITY

We cultivate and celebrate our diverse cultures, lifestyle and sense of community

ENVIRONMENT

We protect and enhance our natural environment

GROWTH

We manage growth and change responsibly

GOVERNANCE

We have community led decision making which is open and inclusive

- 1.4 Provide a regular and acceptable waste and recycling service
- 1.5 Provide continuous urban water and sewerage services within the Shire
- 1.6 Manage traffic and parking in an efficient manner

We cultivate and celebrate our diverse cultures, lifestyle and sense of community

- 2.1 Support and encourage our vibrant culture and creativity
- 2.2 Support access to a wide range of services and activities that contribute to the wellbeing of all members of the Byron Shire community
- 2.3 Provide accessible, local community spaces and facilities
- 2.4 Enhance community safety and amenity while respecting our shared values
- 2.5 Encourage community appreciation of cultural vitality and diversity

We protect and enhance our natural environment

- 3.1 Partner to protect and enhance our biodiversity, ecosystems and ecology
- 3.2 Strive to become a sustainable community
- 3.3 Partner to protect and enhance the health of the Shire's coastlines, estuaries, waterways and catchments
- 3.4 Support and secure our farming future

We manage growth and change responsibly

- 4.1 Support the visions and aspirations of local communities through place-based planning and management
- 4.2 Support housing diversity in appropriate locations across the Shire
- 4.3 Promote and support local business development, education and employment opportunities
- 4.4 Support tourism and events that reflect our culture and lifestyle
- 4.5 Work to improve community resilience in our changing environment

- 5.2 Create a culture of trust with the community by being open, genuine and transparent
- 5.3 Deliver a high level of customer service
- 5.4 Manage Council's assets and allocate resources in a fair and holistic manner
- 5.5 Manage Council's finances sustainably
- 5.6 Manage Council's resources sustainably

Delivery Program and Operational Plan Layout

The Delivery Program and Operational Plan is presented in this document in four key parts.

As displayed on the previous page, the IP&R Framework includes a ten year Community Strategic Plan, a four year Delivery Program and a one year Operational Plan. This document not only includes the Delivery Program and Operational Plan, but it also provides you with our Budget and Statement and Revenue Policy.

The layout and key parts of this document are:

Part 1: Delivery Program 2017-2021 and Operation Plan 2019/20

The Delivery Program part of the document provides the Actions Council will undertake over the next four years to achieve the strategies of the Community Strategic Plan's five Community Objectives.

The Delivery Program also shows how Actions contribute to the social and cultural, environmental, economic and civic leadership areas of community wellbeing in the Byron Shire.

Social and Cultural

Issues involving people and places at the individual and collective level. At an individual level, we are thinking about things like personal wellbeing and quality of life. At the collective level, we are thinking about things like connections in our community, social support, cultural vitality, diversity and participation.

Environment

Issues involving our natural and built environment. We are thinking about things like water, air, biodiversity, open space, transport infrastructure, emissions and other human impacts on the environment.

Economy

Issues such as diversity and resilience in our local economy and economic participation. It acknowledges and reflects the interconnectedness between the economy and social, environmental and civic aspects of our community.

Civic Leadership

Issues involving the opportunity for people to have a say, participate in Council and community groups and processes, and have a sense of choice and control over the things that affect them. It also refers to the Council's performance and the community's satisfaction with that performance.

The Operational Plan sets out Council's proposed Activities which will be undertaken in this third year of the Delivery Program in order to meet the four year Actions of the Program. The Operational Plan also outlines who is responsible for each Activity and a measure or outcome.

Part 2: Budget and Works by Operational Area 2019/20

This part of the document is laid out by operational area and notes who is responsible for each budget area. It sets out our budget for the year ahead and includes the financial plans and budgets for capital works and where funds and resources come from, and go to, in terms of carrying out day-to-day Council operations and to helping fund capital expenditure items.
