Online Services

How to use Development Enquiry

Council's transaction centre to manage public access to online Development Applications (DAs) is called eServices.

This fact sheet outlines the steps you need to:

- track the progress of a DA from lodgement to determination
- To view the development history on a property (back to 2011)
- To view determination notices and plans (2018 only)

From Council's homepage select **'Find a Development Application'**

Find a DA or track progress of an application

This page has a number of different search functionalities to enable the user to find a DA.

It is important to read the instructions at the top of the page to ensure the search criteria is correct, particularly relating to DA numbers.

Notes:

Only DAs lodged after 2001 are available on eServices.

Find a Development Application

You can find DAs online and view DAs on exhibition.

Development Application Enquiry

i Instructions

To make an enquiry enter some information that identifies the applications or properties of interest.

Please note that the DA number format used in online tracking differs from the format used in Council's correspondence. For example the application number 10.2009.10.1 is broken down as follows:

- * 10 (refers to the type of application, in this case a DA)
- * 2009 (refers to the year),
- * 10 (refers to the application number)
- * 1 (refers to the part file, if a Section 96 application (modification) is lodged, this is the only number that will change).

PLEASE NOTE: The format used in online tracking is eg 10/2009, where 10 is the application number and 2009 is the year.
