- (b) This Chapter is prepared pursuant to Section 3.43 of the Environmental Planning and Assessment Act, 1979. In accordance with Section 3.43(1)(c) this plan provides for particular advertising and/or notification relating to specified development. This plan does not include public participation provisions relating to:

 - (iii) Advertised Development; or
 - (iv) Other Advertised Development,
 as defined within Environmental Planning and Assessment Act 1979 and the Environmental Planning and Assessment Regulation 2000.
- (c) Definitions are those contained in the Environmental Planning and Assessment Act 1979, the Environmental Planning and Assessment Regulation 2000, the Local Government Act 1993 and Byron Local Environmental Plan 1988.
- (d) This DCP chapter shall prevail over any other DCP chapter with regard to advertising and public exhibition and notification provisions.

2. OBJECTIVES

The objectives of this chapter are:

- (a) To provide for public participation in the development application process.
- (b) To specify which development applications will require pre-lodgement community consultation, which will be notified, which will be advertised and which will not be notified or advertised.
- (c) To specify whether the whole public, only sections of the public or specified persons will be notified.
- (d) To specify the procedures for advertising and notification of development applications.
- (e) To specify which applications to modify consents (Section 4.55) will be placed on public exhibition or notified.
- (f) To specify where an application is made to review a determination (Division 8.2 & Section 8.9) and amendments are made to the development described in the original application, when that application will be placed on public exhibition or notified.
- (g) To recognise the traditional owners of the land in Byron Shire Council and to provide them with an opportunity to provide advice to Council on matters of Aboriginal significance and heritage.

3. COMMUNITY CONSULTATION PRIOR TO DEVELOPMENT APPLICATION LODGEMENT

For all developments considered to be community significant development, consultation with the community is required prior to the lodgement of the development application.

The following development types will always be considered as community significant development.

- a) a building with a gross floor area of 5,000m² or more in an industrial, rural or commercial zone; or
- b) any development that will be referred under the Act to the Joint Regional Planning Panel; or
- c) any subdivision resulting in 50 lots or more; or

- d) residential accommodation resulting in 10 or more dwellings; or
- e) any development that proposes demolition of a heritage listed item; or
- f) pubs; or
- g) small bars (nightclubs) within the meaning of the Liquor Act 2007; or
- h) function centres; or
- i) restaurants in rural areas; or
- j) offensive industries; or
- k) telecommunications facilities.

3.1 Minimum Requirements for pre-lodgement community consultation

Pre-consultation with communities likely to be affected by community significant development will assist with identifying issues of concern and enable the development design to respond at an early stage. Pre-consultation can reduce costs, time and quantities of submissions.

Well considered community consultation has the ability to address issues and inform the community with background information to assist in understanding the proposed development. It also allows the community more involvement in the design of development in the Shire.

The following Pre-lodgement community consultation must always be carried out as a minimum:

- a) A facilitated community meeting or workshop.

The following advertisements must always be undertaken as a minimum prior to the consultation period, giving at least 10 days notice of the above meeting or workshop:

- a) Advertisement in a weekly Shire wide newspaper,
- b) Site notice
- c) Letter to any known community groups and/or property owners within 500m of the proposed development,
- d) Use of social media platform

The following must always be included in the above advertisements as a minimum:

- a) An explanation of the proposed application, noting that it has not yet been lodged with Council,
- b) Details of where further information can be found,
- c) Information, including the date and time, on the arranged community meeting or workshop,
- d) Alternative avenues for feedback to be shared – email, telephone etc.
- e) Final date feedback will be received and considered.

Council will consider facilitating/assisting pre-lodgement consultation processes within reasonable means which may include:

- a) Putting applicants in contact with local community groups
- b) Attending community meetings
- c) Publishing details of the proposed application and consultation on Council's website and Council's foyer screens.

It is the responsibility of the applicant to collect and collate the submissions and/or feedback received.

If an applicant would like to alter the required consultation as set out, an engagement plan, stipulating the consultation that would take place instead, must be submitted to Council in writing for approval, giving at least 14 days notice prior to the commencement of any consultation.

3.2 Minimum Documentation Required upon Lodging the Development Application

In addition to any requirements when submitting a development application, the following documents are required where a development requires pre-lodgement consultation with the community.

The developer must submit a report to Council as part of the development application at the time of lodgement.

At a minimum, submitted information must include:

- a) a statutory declaration that consultation was undertaken in accordance with this DCP
- b) accurate details of the nature and extent of the consultation
- c) copies of what the community was shown during the consultation process
- d) copies of all submissions and/or written feedback received
- e) a summary of how the community responded to the proposal and the main comments received
- f) an outline on how the submitted application has responded to the community's concerns with meaningful changes highlighted. If the application being submitted is substantially different to what the community was shown during the consultation period detailed reasons are to be given for how and why the proposal is different. Where there are significant changes that do not respond to community feedback, further pre-consultation may be required.

This report will be made publicly available through the statutory notification period for the development application.

3.3 Timing of Pre-lodgement community consultation

It is recommended that community consultation is designed, prepared for and executed as early as possible. This is to allow the community enough time to genuinely engage and provide feedback and to ensure that the development application can have time to respond and potentially adapt prior to lodgement.

The developer must ensure that the community has adequate time to consider and comment on a proposal depending on its complexity and the issues involved.

The period between 20 December and 10 January (inclusive) is excluded from the calculation of a period of public exhibition as per schedule 1 of the Environmental Planning and Assessment Act 1979 (The Act).

Development applications advertised during periods of public holiday will have their exhibition period extended by a minimum of the holiday period.

4. FORMS OF PUBLIC EXHIBITION AND NOTIFICATION

Public exhibition and notification of development applications must consist of one or more of the following components:
