1.2 Background

The planning proposal presents additional items to be considered for inclusion in schedule 5 of Byron LEP 2014. The items presented have been endorsed by the Heritage Advisory Committee and private landowners have been consulted. Pre consultation has also occurred with properties owners identified within what was previously included being the proposed Brunswick Heads Heritage Conservation Area. Formal consultation will occur once a gateway determination is received.

The items have been assessed by Council's Heritage Advisor for their suitability of listing within Byron LEP 2014.

The Planning Proposal was deferred at the 8 December Council (Planning) Meeting which included the addition of a Heritage Conservation Area within Brunswick Heads. Following discussion at a Councillor workshops the options to proceed with a planning proposal for items listings only and remove the addition of a heritage conservation area was presented at the 12 October Council (Planning) Meeting. This option was recommended to proceed for gateway determination.

Part 2 Explanation of provisions

The proposed outcome will be achieved by amendment of Byron Local Environmental Plan 2014 by adding items to Schedule 5 as outlined in Appendix 1 and identifying the items on the appropriate Heritage LEP Maps.

Part 3 Justification

Section A Need for the planning proposal

Q1. Is the planning proposal a result of an endorsed local strategic planning statement, strategic study or report?

The Planning Proposal is consistent with the objectives of Byron Heritage Strategy 2020-2024, Item 2 'to identify places of heritage significance both Indigenous and Non Indigenous, buildings, sites, natural items, cultural landscapes, archaeological and moveable items in Byron Shire and implement measures to protect their integrity and significance.'

It is also consistent with Byron Shire's Local Strategic Planning Statement adopted in September 2020 which includes Planning Priorities which seek to celebrate and protect historic heritage.

Q2. Is the planning proposal the best means of achieving the objective or intended outcomes, or is there a better way?

Yes. Amending the Byron Local Environmental Plan 2014 is the only way to achieve the objectives of the planning proposal.

Section B Relationship to strategic planning framework

Q3. Will the planning proposal give effect to the objectives and actions of the applicable regional, or district plan or strategy (in this case the North Coast Regional Plan 2036)?

Yes. The planning proposal is consistent with the North Coast Regional Plan 2041, which is a 20-year blueprint for the future of the North Coast. The NSW Government's vision for the North Coast is healthy and thriving communities supported by a vibrant and dynamic economy that builds on the region's strengths and natural environment.

The Planning Proposal is supported by Strategy 12.1 of the North Coast Regional Plan 2041. Where Council strategic planning and local plans should consider opportunities to '*protect heritage, biodiversity and agriculture to enhance cultural tourism, agri-tourism and eco-tourism*'

The planning proposal is also considered consistent with Objective 20: Celebrate local character of the North Coast Regional Plan 2041.

Heritage is distinct from local character, although there are often common elements between a conservation area and a place with a valued or distinctive local character.

Managing heritage is not just about managing the material culture of the past, it is also about understanding how heritage influences and shapes communities today

heritage is not just about managing the material culture of the past, it is also about understanding how heritage influences and shapes communities today.

Q4. Is the planning proposal consistent with a LSPS that has been endorsed by the Planning Secretary or other local strategy or strategic plan?

The Planning Proposal is consistent with Byron Shire Council's adopted Community Strategic Plan (2028) which sets out under Society and Culture objectives to celebrate our unique diverse lifestyles and collective community culture. This links to a sense of belonging and links to cultural heritage and recognised heritage value of places within the Shire.

The proposal is consistent with Planning Priorities of the Byron LSPS.

SP2 To strive to become a sustainable community (heritage conservation is highly consistent with sustainability)

LP1 Support and celebrate our heritage, vibrant culture and diverse lifestyles.

Q5. Is the planning proposal consistent with any other applicable State and regional studies or strategies?

The items are of local significance and the planning proposal seeks to conserve the heritage values of the area.

Q6. Is the planning proposal consistent with applicable State Environmental Planning Policies (SEPPs)?

The State Environmental Planning Policies relevant to this Planning Proposal are as follows:

State Environmental Planning Policy (SEPP)	Compliance of Planning Proposal
State Environmental Planning Policy (Transport and Infrastructure) 2021	State bodies are required to consult with Council on development with impacts on Council related infrastructure and local heritage.
State Environmental Planning Policy (Biodiversity and Conservation) 2021	The proposed heritage items raise no conflicts with the provisions for protection of native vegetation and habitat.
State Environmental Planning Policy (Resilience and Hazards) 2021	Flooding, Bushfire are acknowledged general risks to the LGA area and would need to be assessed in relation to any development. The protection of heritage items raise no potential conflicts with risk management.

Section C Environmental, social and economic impact

Q8. Is there any likelihood that critical habitat or threatened species, populations or ecological communities, or their habitats, will be adversely affected as a result of the proposal?

The addition of items in Schedule 5 will have no adverse impacts upon natural habitat.

Q9. Are there any other likely environmental effects as a result of the planning proposal and how are they proposed to be managed?

The addition of items in Schedule 5 will have no adverse environmental impacts. The effect of the planning proposal is to positively protect the heritage significance and values of places within the Byron Shire Council area for future generations. There are no proposals which would have a negative environmental impact.

The Planning Proposal is aimed at protecting significant places and items for future generations. This is likely to have positive social and economic impacts. Areas of high heritage values are usually synonymous with sought after places for living and tourism. The proposal was initiated by the community run Brunswick Heads Progress Association and Chamber of Commerce seeking to protect the values of the village which are enjoyed by residents and visitors alike. The various individual and group items have been identified through some owner requests or by community awareness and supported through Councils Heritage Advisory Committee at a preliminary stage.

Residents and owners were consulted at a pre LEP stage and a public exhibition has been held of the draft proposal, the heritage report and findings. Individual letters were sent out to all property owners in the area seeking feedback. Results showed predominant support for the proposal of items listings.
